

What is the largest solar project in Hungary?

Duna Solar Park is located in Central Hungary in Pest County, near Székesfehérvár, and is the largest solar project in the region. Like Kaba Solar Park, the MET group built it, and together the two solar projects have a capacity of over 50 MW. Built in 2019, Székesfehérvár Solar Park has a capacity of 16.5 MW and is the largest solar project in its county.

Is Hungary a good place to invest in solar?

Currently, Hungary has 2000 MW of PVs installed in the country. However, it aims to increase this to 30,000 MW by 2022 in its renewable drive. This makes Hungary an attractive proposition for solar investors seeking to invest in the CEE region.

Are Hungarian solar projects eligible?

Even then, eligible projects must fulfill "exemption conditions" which lack transparency. In October, the Hungarian government introduced a provision for small, household-sized solar power plants that fundamentally transformed the Hungarian solar market.

How big is solar power in Hungary?

Solar momentum is building in Hungary with almost 4 GW of generation capacity, more than 2.5 GW of which is from arrays bigger than 50 kW in scale, according to data published in December by the Hungarian Energetic and Public Utilities Regulatory Authority. Attila Keresztes, CEO of Astrasun Solar.

Are grid constraints hampering solar deployment in Hungary?

PV deployment is gathering pace in the EU member state but grid capacity shortfalls and unpredictable shifts in government policy need to be addressed if the nation is to harness its full solar - and European energy security - potential. Grid constraints are hampering the roll-out of large scale solar in Hungary.

What happened to Hungarian solar power plants?

In October, the Hungarian government introduced a provision for small, household-sized solar power plants that fundamentally transformed the Hungarian solar market. Since Oct. 31, the aforementioned, sub-50 kW, grid-connected household systems could no longer have a grid connection and could only be used for self-consumption.
