

Hydrogen is used in power systems, transportation, hydrocarbon and ammonia production, and metallurgical industries. Overall, combining electrolysis-generated hydrogen with hydrogen storage in underground porous media such as ...

Download Citation | On Jan 1, 2024, Leijiao Ge and others published A review of hydrogen generation, storage, and applications in power system | Find, read and cite all the research ...

In power generation, hydrogen is one of the leading options for storing renewable energy, and hydrogen and ammonia can be used in gas turbines to increase power system flexibility. Ammonia could also be used in ...

GeoPura HPU technology harnesses green hydrogen to provide zero-emission electricity, augmenting the grid where the local supply is insufficient and replacing diesel generators delivering reliable, large-scale power. Our cutting-edge ...
