

Hydrogen safety. R. Wurster, in Compendium of Hydrogen Energy, 2016 9.3.4.5 Back-up power. Small hydrogen back-up power systems for mobile phone communication towers have become a real business case in several countries (in India, for example) in some of which conventional fuels (e.g., diesel) are subject to theft, whereas hydrogen is not subject to theft.

This is another critical point that you must consider before buying a UPS for computer with 5 hours backup in India. If your system is unplugged from the primary power source, it takes time for your UPS to start functioning. Go for the one with the quicker transfer time; the quicker it is, the sooner the UPS will cut the disruption in the job. 06.
