

Power Grid Corporation of India wins bid for Rajasthan REZ Ph-IV Transmission Project Business Upturn; Instagram. rtr_energy_solutions. State of the art software and hardware, creative problem solving, teamwork and extensive experience make RTR the largest small business in business. The RTR team gathered, as we do every year, to tha ...

Starting his career in Pittsburgh, Ryan recently relocated to the Lehigh Valley to join the RTR team. He began providing Cost Analytics and Project Controls for multiple substation and transmission line projects and is now assisting Project Management on two substation rebuilds.

In addition to the many innovative services RTR Energy Solutions, LLC, provides to its clients, we also pride ourselves on the presence we have within the Environmental Sector. Our Environmental Coordination Team is devoted to providing well-informed recommendations and knowledgeable field management in order to comply with local, state and ...

Outage Coordination works closely with engineering, constructability and the local utility's operations planning department to develop a highly detailed and realistic sequence of outages. By working closely with engineering we gather a comprehensive scope of work . That scope is then organized to consider real world clearance, strength of structures and sequence of major...

Tom started at RTR Energy Solutions on July 12th, 2021, prior to that he worked at PPL for over 40 years starting as a handyman at Brunner Island in 1980. Tom has also previously been a Lineman for 18 years, an LTN/URD Foreman for 2 years, and a System Operator for 15 years.

A glimpse into our laser scanning process. The goal of this project was to scan and determine the 3d surface area of the gray retaining wall sprayed with shotcrete for stabilization. Please click and drag the sliding bars to view more of either image. View Full Size RTR scanned from several locations including a... Read More Read More

The latest drone in our fleet is the Autel EVOII Dual 640T Thermal RTK V3 which (in addition to our DJI

M300 carrying LiDAR) gives us centimeter accuracy photogrammetry. This thing is a beast with dual cameras (48 megapixel 1/2" CMOS sensor capable of 8k ultra HD video, 16X zoom and 640x512 thermal video @30 frames/second), 38 minutes of flight time and a top ...

RTR's Sponsorship sign on hole 7 and our second place prize Throughout 2016, RTR has put forth hours of work and hard effort into moving our projects one step closer to reaching their goals. Regardless of how busy the team has been, we have made numerous efforts to give back to the community by donating to various charities and participating ...

RTR's app capabilities make it possible for us to customize cloud-based app solutions tailored to our client's criteria. Whether your need is for a small boundary line retracement, or a 50-mile-long transmission line base plan, existing and proposed features modeling in 3D, or construction staking of a gas compressor station; RTR has the ...

As a multidisciplinary staff working together under one roof, we have a collaborative process to our projects that allows us to best serve our client's needs. From conception to completion, RTR Energy Solutions provides value to every stage of the project. Watch a brief message from RTR's founder, Ryan Robinson, who leads by example.

RTR is proud to announce the addition of Bill Skumanich as we continue to grow and expand. A 1979 graduate of Williamson College of the Trades (formerly Williamson Free School of Mechanical Trades), Bill has 40 years experience in the electrical utility industry, 35 of those years at PPL Electric Utilities, starting as Plant Equipment Operator at Sunbury SES, PPL Lehigh ...

Alison holds a Bachelor of Arts degree in Geography from Kutztown University, class of 2019. She began her career working through all phases of transmission line construction to maintain environmental compliance. Since joining the RTR team in 2021 Ali has coordinated and conducted E& S (erosion and sedimentation) and PCSM (post-construction storm-water ...

Amanda Emery. Amanda Emery has over 10 years experience in office and financial management and executive assistance, as well as staff management and training nationwide in the pharmaceutical industry. As an RTR Cost Analyst in the Project Controls group Amanda handles invoicing, updating CMX for forecasts and actuals, and contributing to social ...

In addition to aerial (drone) surveying and traditional GPS and Robotic land surveying, RTR has now added Bathymetric Surveying to our ever growing list of capabilities. Bathymetry (from the Greek for " deep measure ") consists of surveying the bottoms of bodies of water using a sonar unit affixed beneath a remote controlled, GPS enabled boat.
