Inergy helpt je bij het halen en verbeteren van je doelstellingen door het optimaal inzetten van data. Daarvoor bouwen, beheren en doorontwikkelen we jouw dataplatform. We zetten een toekomstbestendig datawarehouse op en visualiseren we deze data in interactieve dashboards. Wil je geavanceerde data analytics zoals data science en Artificial ...

Aykut Firat je diplomirani in?enjer elektrotehnike. Diplomu je stekao na Tehni?kom univerzitetu u Istanbulu 1999. godine. Nakon 10 godina iskustva u industriji obnovljivih izvora energije i visokog napona, osnovao je ATR Group 2009. godine i od tada je predvodio razvoj ove kompanije u Turskoj i inostranstvu kao vlasnik i izvr?ni direktor ATR grupe.

INERGY Solutions est une société qui s'est spécialisée dans l'énergie solaire à Madagascar depuis plusieurs années. Aujourd'hui, partenaire avec plusieurs marques de renommée mondiale dont VICTRON ENERGY, nous nous engageons à vous fournir une expertise et un professionnalisme inégalés.

This year Montenegro has issued initial clearance for a solar power plant of up to 506 MW. Earlier this year, RES Montenegro Group received urban planning and technical requirements for a photovoltaic facility with a connection capacity of up to 506 MW. The project in Cetinje is one of the largest in Southeastern Europe.

After the open public bidding, based on the Tender documentation from 12/30/2021, SS& A Power Consultancy was selected by Public Enterprise Electric Power Industry of Montenegro (EPCG) to lead a study on the development of technical solutions for the energy transition and a preliminary feasibility study for gas power plants in combination with renewables.

Montenegro still relies on thermal power plant Pljevlja, but is aware it must seek alternatives. The government is fully aware of the EU's policy towards fossil fuel plants, and knows it is necessary to look for alternative solutions, reads the statement, noting that Montenegro's energy system is small and that it mostly relies on coal-fired ...

Montenegro's transmission system operator, CGES, and Cetinje-based M Energy have signed the first agreement on connecting a planned solar power plant of 385 MW to the grid. The value of the project is around ...

Montenegro, with its scenic 294 km coastline and a significant coastal population (60%), possesses exciting potential for wave energy generation. While the average wave energy density is moderate at 2.5 kW/m, the theoretical annual potential reaches a promising 7 Terawatt hours (TWh). This is a substantial amount, exceeding Montenegro's current electricity ...

Montenegro signs EUR 50 million loan agreement with France's AFD. Energy Efficiency. Montenegro to invest EUR 34 million in energy renovation, distribution grid. 07 November 2024 - Montenegro earmarked EUR 33.8 million for the energy efficiency of public buildings and modernization of the power distribution network.

Montenegro TSO Crnogorski Elektroprenosni Sistem AD (CGES) has secured a grant of EUR950,000 (approximately \$995,771) to modernise the grid, including physical infrastructure upgrades and deployment of digital solutions. Montenegro, a 13,812km² Balkan country on the Adriatic Sea, is seeking to upgrade its power grid to integrate more sources ...

EPCG and EDF intend to cooperate in developing new hydropower plants to ensure Montenegro's energy security. They also aim to apply the best international standards in environmental protection and social issues, technologies, and practices. ... and the development of large-scale energy storage solutions including batteries and green hydrogen ...
