

Who is intelligent energy?

Intelligent Energy (IE) is a leading independent fuel cell manufacturer built on 30 years' experience in the development and manufacture of zero-emission hydrogen fuel cell power systems. We design and manufacture a range of fuel cell products based on our patented fuel cell technology.

Where is intelligent energy based?

Our headquarters and manufacturing are based in the UK, with our systems being used by our partners and customers worldwide. Intelligent Energy is powering the hydrogen future by developing and manufacturing outstanding zero emission hydrogen fuel cell products.

Where did Intelligent Energy come from?

The origins of Intelligent Energy began at Loughborough University in the UK during the late 1980s, when the University became one of Europe's first research and development centres for proton-exchange membrane (PEM) fuel cell technology. In 1995, the UK's first kW-level PEM fuel cell stack was produced by the R&D team.

Who owns Intelligent Energy?

Intelligent Energy was acquired by Meditor Energy, part of the Meditor Group, in October 2017. In 2018, Intelligent Energy announced the launch of its IE-LIFT 802/804 fuel cell modules for power generation applications such as stationary power, micro-grids, telecoms, and critical infrastructure.

What is intelligent energy's new fuel cell?

The impact of this breakthrough extends far beyond the realm of technology. Intelligent Energy's newly developed fuel cell, distinguished by its exceptional efficiency, emerges as a compelling solution to the pressing challenge of decarbonization. Fuel cells seamlessly align with the intensifying emphasis on energy sustainability.

What is Intelligent Energy IE-lift 802/804?

In 2018, Intelligent Energy announced the launch of its IE-LIFT 802/804 fuel cell modules for power generation applications such as stationary power, micro-grids, telecoms, and critical infrastructure. Intelligent Energy's fuel-cell technology is divided into two platforms: air-cooled (AC) and evaporatively-cooled (EC).

Loughborough - 27th June 2023 - Intelligent Energy Limited (IEL) purchase Enapter AG's 1MW AEM Multicore electrolyser for the testing of fuel cell systems from 800W to 300kW+. IEL are delighted to announce the purchase of the electrolyser and with the demand for their fuel cell technology ever growing, it will support the scaling up strategy as they continue to increase ...

Held roles in Intelligent Energy since 2001. Chris has extensive knowledge and expertise of fuel cell and H. 2

. generation technologies. Chief Technology Officer. Phil Spall. Prior to joining Intelligent Energy in 2021, Phil previously held financial positions at Johnson Matthey. Finance Director. Greg Harris. Joined Intelligent Energy in 2021 ...

About Intelligent Energy Limited. Intelligent Energy is a leader in the development and manufacture of cutting-edge hydrogen fuel cells that overcome the limitations of conventional battery-powered systems. The privately-owned company, which has 600 patents in place, has been innovating for more than two decades in the automotive, aerospace ...

Intelligent Energy is proud to work alongside Cyberhawk, a world leader in visual data management. Learn more about the work of Cyberhawk here. About IE. About us; ... Intelligent Energy Limited is a registered company in England and ...

Here at Intelligent Energy, we are always happy to hear from you and assist however we can! Find out all the ways that you can contact us here. About IE. About us; Our History; ... Intelligent Energy Limited is a registered company in England and ...

Shenzhen Intelligent Energy Solution Co.,LIMITED is a high-tech enterprise that specializes in the development and production of lithium battery energy storage system solutions and OEM related products with its headquartered and R& D institution in Shenzhen and its factory in Huizhou. Company info &>> About Us

In development since 2019 under the ATI funded H2GEAR programme, Intelligent Energy's IE-FLIGHT(TM) fuel cell systems offers class-leading current and power densities within an optimised packaging, building an effective foundation for ...

Intelligent Energy is a fuel cell engineering business built on 30 years of PEM fuel cell development. It is focused on the development and commercialisation of its PEM fuel cell technologies for a range of markets including automotive, stationary power and UAVs.

The origins of Intelligent Energy began at Loughborough University in the UK during the late 1980s, [1] when the University became one of Europe's first research and development centres for proton-exchange membrane (PEM) fuel cell technology. In 1995, the UK's first kW-level PEM fuel cell stack was produced by the R& D team. In June of that year, Advanced Power Sources ...

Intelligent Energy Ltd. is credited with ISO 9001-2015 (Quality), ISO 14001-2015 (Environmental), ISO 45001-2018 (Occupational Health & Safety) and IATF 16949-2016 (Automotive Quality Management). At Intelligent Energy, we strive to be a good corporate citizen.

About Intelligent Energy Limited. Intelligent Energy Limited is focused on the development and manufacture of its lightweight hydrogen fuel cell products ranging from 800W to 300kW+ for customers in the automotive,

aerospace, generator, telecoms, materials handling and unmanned aerial vehicle (UAV) sectors.

HYXiPOWER's Strategic Roadmap Commits to Innovating Intelligent Energy Solutions SHANGHAI, May 25, 2023 /PRNewswire/ -- Zhejiang Hyxi Technology Co., Ltd. ("HYXiPOWER"), a leading provider of smart energy solutions, has officially released its annual strategy at the 16th (2023) International Photovoltaic Power Generation and Smart Energy Conference & Exhibition ...

ENDS . For more information, please contact: Hannah Prigg. E: hannah.prigg@groupwhistle T: +447860 864533 . About Intelligent Energy Limited. Intelligent Energy Limited is focused on the development and ...

Intelligent Energy unveils the IE-FLIGHT family of products at FIA24, ... ESAero will represent the Intelligent Energy Limited IE-SOAR fuel cell product line on fixed wing, rotary wing and VTOL UAV applications in the US. ...

Loughborough - 1st November 2023 - Intelligent Energy Limited's (IEL) hydrogen fuel cells have been chosen by mobile elevating work platforms (MEWP) manufacturer Niftylift and plant hire firm Speedy Hire to create a new zero ...

At Intelligent Energy we offer the opportunity to work in a great team, with our world leading technology and cutting-edge products. We offer the following range of benefits: ... Intelligent Energy Limited is a registered company in England and Wales under Company Number: 03958217.
