

Will energy storage expand in MENA?

The current utility business model limits the prospects of energy storage expansion opportunities, unless driven by direct governmental support. Auctions in MENA have been a major driver for renewable energy deployment, most notably for solar and wind, but only a few have included energy storage.

Which energy storage solutions will be the leading energy storage solution in MENA?

Electrochemical storage(batteries) will be the leading energy storage solution in MENA in the short to medium terms,led by sodium-sulfur (NaS) and lithium-ion (Li-Ion) batteries.

How has war affected Iraq's power infrastructure?

Despite the extraordinary challenges of war in recent years,Iraq has made impressive gains,nearly doubling the country's oil production over the past decade. But the turmoil has also undermined the country's ability to maintain and invest in its power infrastructure.
