

How can Iraq move towards a renewables-based energy system?

Overall, for Iraq to move towards a renewables-based energy system, it must introduce regulations covering renewable energies, focus on market development, invest in grid retro-fitting, and adopt energy efficiency measures, all of which are currently lacking in Iraq.

Does Iraq need a constant electricity supply?

The most pressing concern for Iraq's electricity sector is the need to secure a constant electricity supply. At operational level, Iraq's electricity infrastructure requires significant investment to rebuilt, retro-fit and expand its overall capacity and to improve efficiencies.

Can I buy a solar system in Iraq?

Since 2019, the Iraqi government has implemented mechanisms for citizens to access small loans to purchase and install rooftop solar systems. Through public and private banks, it is officially possible to install 3 kW to 10 kW solar systems in the residential sector.
