

How much oil does Iraq produce a day?

It also takes a detailed look at the country's oil and gas sector, projecting that Iraq's oil production will grow by 1.3 million barrels a day by 2030, becoming the world's fourth-largest oil producer behind the United States, Saudi Arabia and Russia.

How much natural gas does Iraq produce?

About two-thirds of Iraq's natural gas output is associated natural gas, which is a byproduct of oil production.⁴⁵ Production cuts from Iraq's oil fields in early 2020, following the OPEC+ agreement, lowered associated natural gas output as well, and natural gas output was around 260 billion cubic feet per year (Bcf/y).

Should Iraq rely on state financing for energy projects?

There has scarcely been a more urgent time for Iraq to pursue crucial reforms in its energy sector to ensure that investment continues even when government revenues have been decimated by low oil prices. The alternative of continuing to rely on direct state financing of large projects only increases the risk that these projects are delayed.

What is Iraq's refining capacity?

Iraq's total operating refining capacity is about 1.2 million b/d.²⁷ The Iraqi government plans to reduce petroleum product imports by rehabilitating the refining sector and building new refineries, but the government has struggled in its efforts to attract the foreign investment needed in the downstream sector.

Is foreign help enough to fix Iraq's energy problems?

Foreign help is not enough to fix energy issues; domestic reform is necessary. This past July, Iraq and France's TotalEnergies finalized the Gas Growth Integrated Project, a \$27 billion energy deal aimed at Iraq's natural resources and improving the country's electricity supply.

Does Iraq need more foreign investment?

Iraq has struck a major deal with France's TotalEnergies company, bringing in \$27 billion in foreign investment to build up natural resource development and electricity supply. Iraq has long desired greater foreign direct investment. Its new government inherited the work of predecessors and is finally seeing results.
