

Who are Dale Power Solutions?

Dale Power Solutions is one of the UK's largest suppliers of uninterruptible power supplies (UPS) and emergency backup generators. We offer a wide range of commercial and industrial power supply products to suit a variety of industries.

Who are Erskine & Dale Power Solutions?

Our Erskine brand AC and DC secure power systems serve the most demanding markets. We offer a range of services, including support for all your diesel generators, gas turbines and DC UPS systems. Dale Power Solutions supplies secure power solutions to all major UK and international market sectors.

What equipment does Dale supply & maintain?

At Dale, we supply and maintain an extensive range of uninterruptible power supplies (UPS), commercial and industrial generators, and energy storage systems. We're busy gearing up for one of our most anticipated events in the exhibition calendar.

Why should you choose Dale power supply?

Widely regarded as an established global brand leader within the power industry, Dale's design and technical expertise, coupled with a network of service and installation engineers and spare parts supply means we are uniquely qualified to deliver and maintain power supplies under any conditions, in any environment.

After the death of John Ellis in 1968, Leonard Dale of Dale Electric GB Ltd acquired the company and developed DC secure power systems for the North Sea Oilfields market. In the early 1970s, Erskine battery chargers ...

Industrial UPS. Industrial UPS are specifically designed for critical processes such as an oil rig or power plant but are also suitable for manufacturing when a break in production can be costly. They won't drop the critical load and can tolerate higher temperatures and dirtier environments. Industrial UPS have a design life of 20+ years with a corresponding battery life.

Dale Power Solutions provide open set diesel generators that meet your exact requirements. Help centre. Products. UPS Solutions. Commercial UPS; Industrial UPS; ... Should a standby generator be used for prime power, care should be taken to ensure the generator is inspected frequently and only used for as long as it is required. Lack of usage ...
