

What is the EU state aid scheme for energy storage in Italy?

The European Union (EU) Commission has approved a state aid scheme aiming to fund the rollout of over 9GW/71GWh of energy storage in Italy. The scheme totalling EUR17.7 billion (US\$19.5 billion) will provide annual payments covering investment and operating costs for those developing, building and operating large-scale energy storage in Italy.

Does Italy need an efficient energy storage system?

These targets cannot be achieved without implementing an efficient energy storage system in Italy. Italy's growing need for storage systems is particularly evident in Central and Southern Italy, where a large number of renewable energy plants have been installed.

Does Italy need 9gw/71gwh of energy storage?

The Winners Are Set to Be Announced for the Energy Storage Awards! Italy's TSO Terna says it needs 9GW/71GWh of energy storage by integrate its renewables pipeline. Image: Terna. The European Union (EU) Commission has approved a state aid scheme aiming to fund the rollout of over 9GW/71GWh of energy storage in Italy.

What is Italy's energy policy?

In line with the EU energy and climate policy framework, Italy's energy policy aims to decarbonise the energy supply through the expansion of renewable energy, electrification and increased energy efficiency across the economy. This is also broadly consistent with the IEA roadmap to net zero (IEA, 2021).

Are energy storage facilities regulated in Italy?

The Italian regulatory framework concerning energy storage facilities has been evolving rapidly in recent years. However, the legislation is relatively fragmented, given the high number of laws governing different aspects of energy storage facilities.

How will EU energy policy affect Italy's electricity system?

EU energy policy and international developments will have implications for Italy's electricity system. Both call for an acceleration of the transition towards renewable sources of electricity generation.

The European Union (EU) Commission has approved a state aid scheme aiming to fund the rollout of over 9GW/71GWh of energy storage in Italy. The scheme totalling EUR17.7 billion (US\$19.5 billion) will provide annual ...

Enel is active in BESS globally, with a portfolio that includes the Azure Sky solar and storage project in Texas (pictured). Image: Enel Green Power . Utility and IPP Enel has ...

February 14, 2024 ACL Energy, a Milan-based battery energy storage developer, today announces a joint venture partnership with BW ESS, an energy storage business dedicated to ...

The European Commission has approved a EUR17.7 billion (\$19.5 billion) Italian scheme to support the construction and operation of a centralised electricity storage system to integrate renewable energy sources ...

Pathways to Success: Comprehensive Strategies for Developing, Financing, Building, and Operating Utility-Scale Energy Storage Projects in Italy. Italy's ambitious energy goals, outlined in the National Integrated Energy and ...

Italy has set its objectives in the energy national plan (PNIEC) pushing to a high integration of the renewable power generation (55% of renewable share in the electric sector by 2030). In the ...

The developer for all projects will be an undisclosed Italian developer specialising in battery storage systems. The project will use Alfen's The Battery Elements battery storage ...

Policy changes in Italy are expected to have a significant impact on the European energy storage market, potentially leading to changes in local energy storage installations in 2024. Firstly, the decline in subsidies under the ...
