

The SunMAX SolarPoint is a remote managed maximum power point tracker (MPPT) 24 V 7 A charge controller with a built-in 4 port 24 V PoE 10/100 Mbps switch and one DC output delivering up to 40 W. It comes with built-in weather prediction service, which together with AI algorithms will provide you with critical information about your solar site ...

Ubiquiti Networks - sunMAX SolarPoint (SM-SP-40) Be the first to review this product... Remotely managed MPPT 24V 7A solar site charging appliance. Integrated four-port, 24V PoE, 10/100 Mbps switch 24V DC-out terminal with max. output 40W External 24V battery charging up to 7A (supports SLA, AGL, AGM)

Ubiquiti SunMAX SolarPoint Managed Charge Controller - Outdoor Major Features: Remotely& nbsp;ManagedMaximum Power Point& nbsp;Tracking (MPPT) 24V, 7ABuilt-In 4-Port& nbsp;24V PoE SwitchDC Output up& nbsp;to 40WWeather Prediction& nbsp;Service Versatile, Modular Design The SolarSwitch or SolarPoint are easy to set up for almost any ...

The SunMAX(TM) SolarPoint(TM) is a remotely managed MPPT 24V 7A charging appliance with a built-in, four-port, 24V PoE, 10/100Mbps switch and one DC output that delivers up to 40W. It comes with built-in weather prediction ...

SunMAX SolarPoint Switch Indoor . Remotely managed MPPT 24V 7A solar site charging appliance with a built-in, four-port, 24V PoE switch. The SunMAX(TM) SolarSwitch(TM) is a remotely managed MPPT 24V 7A charging appliance with a built-in, four-port, 24V PoE, 10/100Mbps switch and one DC output that delivers up to 40W. It comes with built-in ...

The SunMax SolarPoint provides a 4 port 24V POE switch. I'm looking at the POE cameras that would work with it, but they all look like they require POE 48V, so I'm trying to figure out how best to get the 24V scaled up to 48V. Or if there are some cameras that work with 24V POE. This will be a pole setup out in a field running on solar battery.

The password can be found on the sticker located under the SolarPoint cover. Pole Mounting 1. Open the Metal Strap and feed it through the mounting slots on the back of the SolarPoint. Page 5: Wall Mounting Wall Mounting 1. Attach the two wall mount brackets to the back of the SolarPoint. 2. Install the wall mount level securely to the wall ...

The SunMAX(TM) SolarPoint(TM) is a remotely managed MPPT 24V 7A charge controller with a built-in 4 port 24V PoE 10/100Mbps switch and one DC output delivering up to 40W. It comes with built-in weather prediction service, which together with AI algorithms will provide you with critical information about your solar site"s existing and future ...

SunMAX(TM) SolarPoint(TM) is a remote managed MPPT 24V 7A charge controller with a built-in 4 port 24V PoE 10/100Mbps switch and one DC output delivering up to 40W. It comes with built-in weather prediction service, which together with AI algorithms will provide you with critical information about your solar site's existing and future performance.

sunMAX SolarPoint. sunMAX SolarPoint. SM-SP-40. Datasheet. Marketing Images. Installation Guide. Mechanical; Dimensions: 202 x 190 x 50 mm (8 x 7.5 x 2"); Weight: 650 g (1.4 lb) Enclosure material: UV-stabilized polycarbonate: ...

Ubiquiti Networks SunMAX SolarPoint MPPT Charge Controller; H4 Connector Removal Tool; 6 x Ferrules; Metal Strap; Wall Mount Kit; Screw Kit; NTC Thermistor; Zip Tie; Limited 1-Year Warranty; Reviews Customers also viewed more . 1. Stock: 2. SM-SP-40. Ubiquiti SunMAX SolarPoint. 119 Similar. \$282.99.

The Ubiquiti SunMAX(TM) SolarPoint(TM) is a remote-managed MPPT charge controller with a built-in four-port 24 volts PoE, 10/100 Mb/s switch and a DC output delivering up to 40 watts. It comes ...

The SunMAX SolarPoint MPPT Charge Controller from Ubiquiti features MPPT PV power control, along with a built-in weather prediction service that works in conjunction with AI algorithms to provide you with information about your solar ...

sunMAX SolarPoint. SM-SP-40. \$150.00. Sold Out. Remotely managed MPPT 24V 7A solar site charging appliance. Integrated four-port, 24V PoE, 10/100 Mbps switch. 24V DC-out terminal with max. output 40W. External 24V battery charging up to 7A (supports SLA, AGL, AGM) Weather prediction service.

MPPT de la marca Ubiquiti Networks de la gama Sunmax Solarpoint SM-SP-40. Un MPPT es un conversor electrónico de CC a CC que regula y optimiza la coincidencia entre las diferentes matrices solares que son los paneles fotovoltaicos y los bancos de baterías o la red pública contratada para suministro. En resumen, este ...

Thank you for purchasing the Ubiquiti Networks SolarPoint MPPT Controller. This Quick Start Guide is designed to guide you through installation and includes the warranty terms. Package Contents SolarPoint Installation Requirements o Phillips screwdriver o Needle nose pliers o Shielded Category 5 (or above) cabling should be used for all
