

What is Japan's first energy storage project?

In 2015, we started Japan's first demonstration project covering energy storage connected to the power grid in the Koshikishima, Satsumasendai City, Kagoshima. This project is still operating in a stable manner today. One feature of our grid energy storage system is that it utilizes reused batteries from EVs.

Why do Japanese companies invest in the battery industry?

The fact that some of Japan's most well-known brands internationally, such as Panasonic, and Toshiba, are heavily invested in the battery business is testament to the healthy position Japanese companies enjoy in this industry.

Why do Japanese businesses need battery storage?

Businesses see battery storage as a complement to their renewable energy strategy, and a strong opportunity to improve their bottom line while accelerating their path to decarbonization. Enel X is a global leader in this space, and is a partner of choice for Japanese businesses.

MI Matrix analyzes the top 10 companies in Japan Lithium-ion Battery Market, revealing Panasonic Corporation, LG Energy Solution, GS Yuasa International Ltd, Toshiba Corporation, and Maxell, Ltd as market leaders due to their ...

Among the global leaders in battery technology, Japan stands out as a powerhouse in lithium-ion battery manufacturing, renowned for its innovation, reliability, and quality. As we step into ...

The islands of Hokkaido and Kyushu, at opposite geographical ends of Japan's biggest populated island, Honshu, are Japanese renewable energy development hotspots and, more recently, have become the place to ...

Among the global leaders in battery technology, Japan stands out as a powerhouse in lithium-ion battery manufacturing, renowned for its innovation, reliability, and quality. As we step into 2024, let's delve into the heart of ...

Chinese battery manufacturer Gotion High-Tech has continued recent moves into new markets across Asia, signing a deal with Japan's Edison Power. The two companies will target growing demand in the Japanese ...

Indeed, the government's three-year Basic Energy Plan aims for renewables to reach 22-24% of the national energy mix by that year. That would peg solar's share at around 64GW. But, as Kaizuka says, nuclear energy isn't ...

In response to this issue, Sumitomo Corporation aims to expand its business of storing energy nationwide in

Japan by developing a large-scale energy storage platform that can compensate for this lack of transmission line capacity.

Since 2008, as one of top 10 household energy storage manufacturers in China, BYD energy storage has focused on the research and development and application of energy storage systems, and has established a complete ...

A full interview with Mahdi Behrangrad, head of energy storage at Pacifico Energy will be published on this site for Energy-Storage.news Premium subscribers in the coming days. Energy-Storage.news" publisher ...
