

Who is JECO energies?

Jeco Energies was founded just seven months ago - a short period in which a lot changed, both in the energy sector and beyond. During this time, our goal has remained the same: to become a pioneer in industrial energy. This is what we were able to realise in 2022: 1. Jeco Energies is born

What happened to JECO energy?

The company was established in 2022 as the result of the merger of hardware rental company Gens Rental, EPC contractor DSG, and industrial automation specialist Dymotec. As of today, the business will continue to operate under the name of Jeco Energies. It employs more than 200 people and has doubled its revenues over the last 2 years.

Why should you choose JECO energies?

Jeco's engineered power solutions contribute to the electrification of industrial processes. Their unique expertise and position in the value chain, in combination with the structural demand for expansion of the electrical power grid, make Jeco Energies a powerful player in a rapidly growing market'.

What will NPM Capital do for JECO energies?

The participation of NPM Capital will accelerate the growth of Jeco Energies in the coming years through an increased focus on strategic acquisitions and international expansion. NPM Capital will contribute the required experience, expertise and capital in that area.

Why did NPM invest in JECO?

'We are impressed by the strong growth realised by the company in recent years', says Hiram Claus, investment director and head of Belgium for NPM Capital. 'This investment is in line with NPM's strategy of investing in sustainable businesses. Jeco's engineered power solutions contribute to the electrification of industrial processes.
