Over the past period, the International Organization for Migration (IOM) has significantly increased its use of solar power across South Sudan. One example is the IOM managed solar plant that supplies electricity to the Humanitarian Hub in Malakal. The Hub, which has been listed as one of the twelve environmentally friendly practices in the global ...

Aptech Africa is delighted to announce the successful installation of 26 MW of solar panels in Juba, South Sudan. This project was entirely self-funded by Ezra Construction Company. Since 2011, Aptech Africa has had a steadfast presence in South Sudan and has consistently been the preferred EPC (engineering, procurement, and...

This transformative shift towards solar power not only mitigates climate change but also enhances energy resilience. With a reliable electricity source complementing the conventional grid, the hotel can navigate power outages and fluctuations while significantly reducing their carbon footprint and electricity bills.
