

Can a new energy storage facility be built in Israel?

(Sue Surkes/Times of Israel) An Israeli company that has developed a unique method of storing renewable energy using air and water announced Wednesday that it has signed an \$8 million agreement in principle with the Israel Electricity Corporation to build the first facility of its kind in the world, in Dimona, southern Israel.

Will Israel create a 'kosher' energy network for ultra-Orthodox Jews observing the Sabbath?

REUTERS/Mussa Qawasma JERUSALEM, May 7 (Reuters) - Israel approved on Sunday a plan to create an energy storage network in cities to produce off-peak electricity, which will also supply 'kosher' electricity for ultra-Orthodox Jews observing the Sabbath.

Will Israel build a 300 megawatt solar power plant?

JERUSALEM, Aug 19 (Reuters) - Israel has received 11 bids to finance, build and operate a 300 megawatt solar-powered electricity generation plant and storage farm in the southern part of the country, the Finance Ministry said on Thursday.

Will Israel build a megawatt power plant?

It will be built by state-owned Israel Electric Corp for up to 120 million shekels (\$33 million) and privatised after three years. If successful, hundreds of megawatts in storage facilities will be built nationwide, the ministry said, without giving a timeframe. Our Standards: The Thomson Reuters Trust Principles.
