

What is Jiangxi Copper?

Jiangxi Copper (simplified Chinese: 江西铜业; traditional Chinese: 江西銅業) (SSE: 600362) is the largest copper producer in Mainland China. Its operations include copper mining, milling, smelting and refining to produce copper-related products, including pyrite concentrates, sulfuric acid and electrolytic gold and silver.

How much did Jiangxi Copper invest?

Jiangxi Copper also said it would invest 800 million yuan in another project to make 220,000 tonnes per year of copper rods and 600 million yuan in a joint venture to make 30,000 tonnes per year of cast materials. That brings the total investment across the three projects to 12.8 billion yuan (\$1.98 billion).

Where does Jiangxi Copper sell?

Jiangxi Copper distributes its products in domestic markets, and exports to Hong Kong, Taiwan, Australia and Thailand, among others. During the year 2008, Jiangxi Copper increased approximately 6.09 million metric tons of copper, 145 metric tons of gold and 1,700 metric tons of silver in reserve.
