

Joju Solar worked with my wish list and presented the practical answer. Able to answer all technical questions. Their Project Manager then worked with us enabling late specification changes to be achieved. From start to finish we knew where we were and what was possible. All the roofers and electricians took pride in their work.

Joju Charging is part of Joju Solar who offer solar PV and battery storage solutions. Joju Solar was founded as a response to the climate crisis. Our remit has always been the decarbonisation of buildings. Joju Charging extends this to address the transportation sector as well, with additional benefits of improved local air quality.

Joju Solar are expert designers and installers of low carbon electricity technologies at all scales. We install solar panels, battery storage and electric car charging points. Importantly, we are ...

In February, Newport City Council announced a plan to roll-out 2MW rooftop solar PV across buildings in the city in a partnership with Egni Co-op and installer Joju Solar. In London, Wandsworth Council has announced its plan to transition to 100% zero carbon energy and the City of London Corporation put out a notice of procurement for up to ...

According to Dr Christian Jardine, senior lecturer in energy at Oxford University's Environmental Change Institute and co-founder and technical director at Joju Solar, multi-material panels could theoretically reach 95% efficiency by deploying technologies such as quantum dots, semiconductor particles operating at the nanoscale.

Just had Joju install solar PV panels and Powerwall - great experience. A delightful company to work with. - Chris McG via Google Reviews. Joju Solar have been patient and supportive throughout the install of my new solar array and Powerwall 2 battery system. They fitted the battery in a day, wired it up, stayed longer than expected to make ...
