

## Is Kaishan a profitable business?

Kaishan quickly expanded the niche technology into a lucrative business. Since it put online the first of four phases of the 240-MW Sorik Marapi Geothermal Project in Indonesia in 2018, it has built the 10-MW Sokoria Geothermal, also in Indonesia, alongside projects in Turkey, the U.S., and Hungary.

Does Kaishan have a Rankine cycle expander?

Kaishan, which had then already begun its transition from a giant Shanghai-headquartered air compressor maker to a diversified global company, jumped into action to leverage its 2012-developed Organic Rankine Cycle (ORC) expander and screw steam expander technologies.

## Is China ready to commercialize energy storage?

China is currently in the early stage of commercializing energy storage. As of 2017, the cumulative installed capacity of energy storage in China was 28.9 GW, accounting for only 1.6% of the total power generating capacity (1777 GW), which is still far below the goal set by the State Grid of China (i.e., 4%-5% by 2020).
