

Who is Kallista energy?

About Kallista Energy Founded in 2005, Kallista Energy is an independent renewable energy producer whose mission is to produce electricity at the best economic and environmental cost for energy transition and electric mobility.

Will Kallista energy sell wind-generated electricity to Lhyfe?

Kallista Energy will sell wind-generated electricity to Lhyfe, one of the world's pioneers in the production of green and renewable hydrogen.

Where does Kallista operate?

We operate in France, Germany and the Netherlands. Kallista Energy group owns and operates 38 wind and solar farms. Additionally, several very high-power recharging stations are currently under development. We are actively engaged in battery electricity storage projects. Contribute to the energy transition !

How many wind farms does Kallista energy operate?

Kallista Energy currently operates 38 wind and solar farms in France, the Netherlands and Germany, with total capacity of 438 MW. In the Netherlands, Kallista Energy also has a 40% equity stake in the 102 MW Krammer wind park.

What is Kallista energy doing in France?

In addition to the operation of its renewable energy parks and the realisation of new projects, Kallista Energy has started developing a network of 90 very high-power charging stations for electric vehicles in France, most of which will be directly connected to wind turbines.

What makes Kallista Energy Group different?

Kallista Energy Group owns and operates all its energy infrastructure. Our projects are designed with the support of independent experts and in consultation with local stakeholders. What makes us different ? According to the IPCC, renewable energy sources are among the most effective solutions for mitigating the impacts of climate change.

Depuis 2005, Kallista Energy contribue à la transition énergétique en restant fidèle à ses valeurs : convictions, éthique pragmatisme et durabilité. Notre groupe poursuit la croissance de son ...

Kallista Energy a procédé à l'un des tout premiers renouvellements d'un parc éolien en France en 2018. Plusieurs autres parcs ont depuis été renouvelés avec toujours la même exigence de ...

Kallista Energy s'est fixée pour mission de développer des sources d'énergies qui construisent un avenir viable pour les générations futures. Nous voulons livrer une électricité à prix compétitif, ...

Kallista Energy est un acteur indépendant des énergies renouvelables. Nos activités comprennent l'éolien, le solaire, la mobilité électrique et le stockage d'énergie par batterie. Notre démarche ...
