

TY - GEN. T1 - Energy Transition Initiative: Island Energy Snapshot - British Virgin Islands. AU - Zelinka, David. PY - 2015. Y1 - 2015. N2 - This profile provides a snapshot of the energy landscape of the British Virgin Islands (BVI), one of three sets of the Virgin Island territories in an archipelago making up the northern portion of the Lesser Antilles.

From its initial start as private/public autonomous and individual producers of electricity, the government owned public electricity supply was established in the 1950's. At that time, the BVI's main source of electricity was produced by one 20 KW generator, which provided six hours of service per day and supplied 63 consumers between Government house and...
