

Who is Kijo Battery Company?

Kijo Group is a professional energy storage battery company that integrates science, industry, and trade with production capacity. We have 30 years of expert experience and four production bases in China, and we also possess more than 400 middle and senior technical personnel. Please click to get the KIJO battery price!

How big is Kijo battery factory in Bangladesh?

The Bangladesh base covers 200,000 square meters and undertakes the production of lead acid battery plates and assembly. With 3,000 employees, more than 400 middle and senior technical personnel, KIJO has strong technical strength and advanced equipment.

What applications can Kijo batteries be used for?

KIJO batteries can be used for start-up or deep cycle applications, and perform well in series and parallel connections. Any application requiring high quality, reliability, and lightweight lithium battery can be supported by our battery and its integrated BMS.

Which is the best Kijo battery?

The comprehensive strength of KIJO is the best in the industry, as a well-known AGM (Absorbent Glass Mat Battery), GEL, Deep Cycle, Lead Carbon, OPzV battery, OPzS battery, Lead Acid batteries, and Lithium batteries for all kinds of industrial applications like Solar System, UPS system, Telecom, Data Centers, Rail Transit, Motive Vehicles, etc.

Who is Kijo group?

KIJO Group is a professional power battery factory in China, which is committed to offering better battery solutions to clients all over the world. There are several types of rechargeable storage battery technologies available including standard flooded, absorbent glass mat (AGM), etc.

What certifications does Kijo battery have?

KIJO battery has passed ISO9001, ISO14001 ISO16949 system certifications and its products comply with international certifications such as IEC, UL, CE, FCC, C-Tick, PSE, RoHS, etc. KIJO Group is a professional power battery factory in China, which is committed to offering better battery solutions to clients all over the world.
