

2 ???· Fervo Energy provides 24/7 carbon-free energy through the development of next-generation geothermal power. Fervo's mission is to leverage innovation in geoscience to accelerate the world's ...

What is Fervo Energy focused on in 2024? We're ushering in a new era of geothermal energy. Our approach to enhanced geothermal energy is no longer a theoretical concept--it's a proven solution for meeting the world's growing demand for sustainable energy. We're building modular power facilities and we're able to scale them quickly.

Fervo Energy is an energy resource company focused on harnessing heat through enhanced geothermal systems (EGS). It was co-founded in 2017 by Tim Latimer, a mechanical engineer who worked as a drilling engineer at BHP until 2015. His departure from the oil and gas sector was driven by a desire to apply techniques observed during the shale revolution to geothermal extraction.

Demand for 24/7 carbon-free energy is soaring as its role in addressing climate change becomes more widely recognized. Power buyers are seeking to bolster reliability, reduce costs, and meet clean energy mandates, corporations are voluntarily establishing 24/7 carbon-free electricity targets, and the federal government is mandating that federal ...

Fervo's Mission is to use innovation in geoscience to accelerate the world's transition to sustainable energy. To accomplish that goal, Fervo has developed groundbreaking technology solutions that have advanced the state-of-the-art of geothermal energy decades ahead of schedule, including the world's most successful commercial enhanced geothermal system ...

1 ??· Fervo Energy is ending 2024 much like how it started it- raising hundreds of millions of dollars in financing to support its next-generation geothermal projects. Today Fervo announced that it has secured \$255 million in new ...

1 ??· "The demand for 24/7 carbon-free energy is at an all-time high, and Fervo is one of the only companies building large projects that will come online before the end of the decade," said Fervo CEO and Co-Founder Tim Latimer. "Investors recognize that Fervo's ability to get to scale quickly is vital in an evolving market that is seeing ...

2 ???· The funding will go toward supporting Fervo's ongoing and future geothermal projects. "The demand for 24/7 carbon-free energy is at an all-time high, and Fervo is one of the only companies building large projects that will come online before the end of the decade," Fervo CEO and Co-Founder Tim Latimer says in a news release.
