Workbench Energy | 1,522 followers on LinkedIn. Maximize the value of your power with Ontario's premier peak prediction and energy market operations platform. | Workbench Energy merges deep power system expertise with an industry-leading software platform. We use modern AI machine learning techniques to maximize our customer's benefit from interacting ...

Join us at LAOENERGY 2024, the premier international trade show for power, transmission, distribution, and electrical engineering in Laos. Taking place from Sept. 25-27, 2024, at the National Convention Centre in Vientiane, this annual event organized by AMB Tarsus Events Group and Tarsus Group Plc is a must-attend for professionals in the energy ...

AKP Phnom Penh, May 31, 2024 -- The Cambodia Ministry of Mines and Energy (MME), Singapore Ministry of Trade and Industry (MTI), and Lao PDR Ministry of Energy and Mines (MEM) have established a work group to facilitate cross-border electricity trade to drive the ASEAN Power Grid vision. According to a press release issued after the meeting early this ...

Laos' 2011 Renewable Energy Development Strategy aims to achieve a renewable energy share of 30% in total energy consumption by 2025. The policy encourages investment in renewables and small power development for self-sufficiency and grid connection.

Welcome back to the Power Tools Podcast! On this episode we cover the evolution of demand response in Ontario with Allison Miller of Enel X together with Aaron Lampe and Heather Sears of Workbench Energy.

Discussion ...

On November 21, 2024, in a pioneering effort to create career opportunities for women in the energy sector, the Lao Youth Union and local social-enterprise STELLA, with support from the United States Agency for International Development (USAID), officially launched the Lao Women in Energy Scholarship and Professional Development Program.

Workbench Energy is a specialized energy management company that helps its customers get the most value out of their power usage and power production. Combining a team of energy market experts and state-of-the-art software and analytics, Workbench Energy offers NRG Peaks, its best-in-class peak advisory and market data services. ...

5 ???· The Ministry of Energy and Mines (MEM) is considering adjustments to electricity pricing for the 2024-2028 period to sustain long-term electricity generation and supply in Laos. During an August 29 forum at Electricite du Laos (EDL), officials discussed revising the pricing framework in response to the depreciation of the Lao kip, which has led ...

The Lao PDR's total final energy consumption (TFEC) grew by 2.7% from 2010 to 2018 (Figure 10.1). Electricity grew the fastest at 10.5% per year, followed by petroleum products at 7.3%. Biomass consumption, which has the highest share in the TFEC, decreased at an average rate

The Lao government has set ambitious targets for renewable energy development, aiming to increase the share of renewables in the country's energy mix to 30% by 2025. To achieve this goal, the government has been implementing various policies and incentives to encourage investment in renewable energy projects, such as feed-in tariffs, tax ...

small hydropower, solar energy, wind, Geothermal energy and bio energy). Of those 19%, traditional biomass, mainly used for cooking and heating counted for 13% and slightly decreased, due to more efficient use of biomass and availability of modern energy

VIENTIANE: A concession awarded to a Chinese company on the construction of Phase I of a 1,000MW solar farm in Xay and Namor districts, Oudomxay province, is a step towards bolstering energy ...
