

Large-scale energy storage projects explode

The immense need for grid batteries are clear: In addition to backstopping on-and-off wind and solar energy and preventing blackouts, they can directly replace dirty parts of the grid, such as ...

One large missing piece has been funding. Storage projects are risky investments: high costs, uncertain returns, and a limited track record. Only smart, large-scale, low-cost financing can lower those risks and clear the way ...

NYSERDA Support Enables Projects Essential for New York's Zero-Emission Targets. Albany, NY - Nov. 29, 2021 - Key Capture Energy, LLC (Key Capture Energy), a leading U.S. energy storage independent power ...

Battery storage is a key piece of California's clean energy transition. But there's a problem with fires. Terra-Gen's Valley Center battery storage project opened in February 2022. A fire...
