

Will there be a solar panel Park in Latvia?

Work has already begun on the assembly of the panel structure to prepare for the laying of the panels," B?rzi?? said. Merito, which is the owner of Kalk?nes SES, will have eight such solar panel parks in Latvia, said M?ris Pl?me, board member of the fund's cooperation partner, the company "Saules Energy" (Solar Energy).

How much electricity will the Daugavpils solar power plant produce?

Annually, the solar power plant will produce 13,500 megawatt-hours of electricity, which will be enough to fully supply at least 6,500 households in the Daugavpils area. "We are located in Kalk?ne parish, we will start work here, we will build a solar panel park.

How will Daugavpils power plant work?

The electricity produced by one of the Daugava hydroelectric plants must travel through long cables to reach Daugavpils or the Upper Daugava region. But this power plant will be very close, and practically everything produced at the station will automatically reach Daugavpils consumers and companies immediately," Pl?me said.

The solar farm will have a capacity of 148 MW once completed, which will make it one of the largest solar farms in the country. The solar farm will be located near Targale in ...

This week, the construction of Latvia's largest solar power plant so far is starting at Kalk?ne in Aug?daugava district, reports Latvian Radio. Having invested more than 10 million euros, the investment fund "Merito Sustainable ...
