

What is a Leoch lithium battery?

With the core technologies of energy storage integration and application, the Leoch lithium battery focuses on household energy storage, network energy, power energy storage, intelligent energy, and more fields. Leoch has a professional BMS research and development team to meet the diversified energy demands of customers.

What makes Leoch batteries special?

Leoch manufactures Premium Lithium-Ion batteries with exceptional endurance during cyclic usage, long-life and high energy density to cover any renewable and energy storage requirement.

Who makes Leoch batteries?

Leoch manufactures batteries that are designed to excel in consistent starting power and reserve capacity (RC) and are engineered for garden tractors and light utility vehicle applications. Leoch Nordeuropa GmbH is sponsoring as well as exhibiting today at the Data Center Nation Warsaw 2023 conference.

How reliable are Leoch batteries?

Leoch provides reliable batteries for golf trolleys or golf carts, or other deep cycle applications requiring extensive cycling from the batteries. As levels of environmental-consciousness increase, so does the demand for alternate sources of power.

Are Leoch batteries good for UPS?

Leoch's sealed Lithium batteries specifically designed for reliable back-up power, are ideally suited to satisfy the high-rate power requirements of the most demanding UPS applications.

Key Features of the Leoch Lithium Battery. Nominal Voltage and Capacity: With a nominal voltage of 48V and a capacity of 100Ah, this battery provides a substantial energy output of 4.8kWh, making it ideal for various energy storage needs. Wall-Mount Design: The battery's wall-mount design allows for easy installation and space-efficient placement, making it suitable for both ...

LEOCH® 48V LFEI Series, Lithium Iron Phosphate (LiFePO₄) batteries, have been built to withstand the most extreme environmental conditions, offering 2x the power, 20x longer cycle life and 5x longer design life. Batteries are equipped with a built-in BMS and can be mounted into 19" standard cabinets and placed into parallel connection for 48VDC, 1600AH [...]
