THE High Court this week delivered a massive blow for Frazer Solar, a Germany company trying to impound Lesotho's assets over a botched solar power deal. The court ruled that the M2 billion contract Frazer Solar signed with former Minister Temeki Tšolo in 2018 violated Lesotho's constitution and procurement regulations.

**Key Facts.** The first ever Solar Farm in Lesotho. Phase I will supply 30MWP to the national grid and Phase II 40WMP. Client Name: Tuwana Construction Pty Ltd Footprint: 473 000 m<sup>2</sup> & 55Km 13KV transmission Line Country: Mafeteng ...

On 03 August 2021, Fitch Ratings - a leading credit rating agency - highlighted legal action against the Government of Lesotho as a risk to Lesotho's GDP revenues, stating: "Seizure under legal proceedings in South Africa by the German company Frazer Solar of Lesotho's foreign receipts including water royalties that South Africa pays to ...

The Lesotho High Court rules in favour of GOL and sets aside the original supply agreement. Frazer Solar states the ruling is irrelevant as Lesotho lacks jurisdiction and the ruling is out of time. Frazer Solar states will recommence global enforcement action, such as what it recently did in Belgium, against GOL assets which had been on hold.

Solar Energy in Lesotho is a renewable energy source that has been gaining traction in recent years. It is a clean and sustainable form of energy that has the potential to provide power to the entire country. Lesotho is located in the southern hemisphere and is blessed with an abundance of sunshine, making it an ideal location for solar energy.

In California, where solar power is particularly popular, homes with solar panels have been shown to sell for an average of 3-4% more than comparable homes without solar installations. Additionally, a study by the Lawrence Berkeley National Laboratory found that buyers were willing to pay a premium for homes with solar panels.

Mafeteng Ha Ramarothole Solar PV Park is a ground-mounted solar project which is planned over 220 hectares. Development status Post completion of the construction, the project is expected to get commissioned in June 2023. For more details on Mafeteng Ha Ramarothole Solar PV Park, buy the profile here. About

TBEA Xinjiang New Energy

The Neo 1 Project involves the design, financing, construction, ownership, operation, and maintenance of a 20MW solar PV plant in Lesotho, in the Mafeteng district, south of the capital city of Maseru. The Project consists of 70,000 solar panels on single-axis tracker, a 33kV powerline connecting the plant to a substation, and an inverter station.
