

What is LG Energy Solution's corporate vision?

This marks the first time LG Energy Solution has introduced a corporate vision since its establishment at the end of 2020. The new vision underscores that the essence of LG Energy Solution's business lies not merely in battery production, but in facilitating the energy circulation across the entire cycle from storage to movement of energy.

What will LG Energy Solution do for the battery industry?

Finally, LG Energy Solution will focus all efforts on securing leadership in next-generation battery technologies to bring more innovation to the sector. Regarding solid-state batteries, the company plans to lead the market by producing anodeless products that exclude lithium anodes, and 'graphite-based' anode products.

What will LG Energy Solution do with ESS?

"Through the deal, LG Energy Solution will accelerate its energy storage business and ultimately better provide our clients with a more comprehensive ESS program that meets the growing demand," said Youngsoo Kwon, CEO of LG Energy Solution.

What will LG Energy do in the near-term?

In the near term, the division will pursue a leading position in the North American market through the full-scale production of ESS cells in the U.S., which is set to start in 2025, advanced SI capabilities through LG Energy Solution Vertech, and new products with higher energy capacity and longer duration.

Which companies use LG batteries?

Customers of LG, which is one of the world's largest makers of batteries for electric cars and energy storage devices, include General Motors, Ford Motor, Honda and Tesla. "We believe it's the right move at the right time in order to empower clean energy transition in the U.S.," Youngsoo Kwon, the company's chief executive, said in a statement.

What are LG Energy Solution's five-year goals?

LG Energy Solution presented its five-year goals to more than double the revenue compared to 2023 (KRW 33.7 trillion), and achieve mid-teen percent EBITDA margin (excluding the IRA tax credit) by 2028 to secure stable profitability and cash generation capabilities.
