

We will install 51 solar power plants on the roofs of public buildings, including primary schools, kindergartens, health care centres and sports and cultural facilities, with a total capacity of ...

Energy storage systems enable power-supply reliability and quality as well as system stability. Pumped-storage hydroelectric power plants maintain the balance between the supply and ...

6 ...; Slovenia's government plans to co-finance the construction of waste-to-energy plants in Ljubljana, Maribor and Kocevje, environment minister Andrej Vizjak said. The government will adopt the relevant decision later this month ...

The HSE Group hydroelectric power plants can fully supply every Slovenian household with electricity from renewable sources. In 2020, the HSE Group power plants, the largest Slovenian electricity producer, produced ...

Bioenergy is used as primary fuel for Thermal Storage Power Plants in order to guarantee firm power capacity at any time just on demand in order to close the residual load ...

Ljubljana adopts ambitious energy strategy by 2030. Three hydro power plants on the Ljubljanica river are planned along with a waste-to-energy plant and number of solar power plants. In line ...

Thermal energy storage (TES) is the most suitable solution found to improve the concentrating solar power (CSP) plant's dispatchability. Molten salts used as sensible heat storage (SHS) are the most widespread ...

6 ...; Slovenia's government plans to co-finance the construction of waste-to-energy plants in Ljubljana, Maribor and Kocevje, environment minister Andrej Vizjak ... ENERGY STORAGE; HYDROGEN; OTHER RES; By region. ...

For conventional power plants, the integration of thermal energy storage opens up a promising opportunity to meet future technical requirements in terms of flexibility while at ...

OverviewOperating unitsOwner-OperatorProduction of heat and electricityFuelSee alsoExternal linksThe power station consists of three units, which went in service in 1966, 1967, and 1984, and generate 42 MW, 32 MW, and 50 MW of electric power (94 MW, 94 MW, and 152 MW of heat, respectively). The 101 metre tall chimney at [46°32'28.9"N 14°32'40.9"E](#) / [46.058028°N 14.544694°E](#) has a gallery that resembles an observation deck. However, it contains equipment for exhaust monitoring.

We have the production capacity of 2,089 MW of installed power at our disposal. This includes 596 MW in

systemic hydro power plants, 4 MW in small hydro power plants and 2 MW in solar power plants operated by Dravske Elektrarne ...

It is the first Pumped Storage Power Plant in Slovenia and the first Reversible Pumped Storage Power Plant of this type in Europe. AV?E PSPP generates 426 GWh of electricity per year. ...
