

Who is Lohum cleantech?

Lohum Cleantech, a producer of clean energy transition materials through battery recycling and repurposing, has raised Rs 119 crore (approximately \$14.5 million) as a part of its ongoing Series B round.

Is Lohum Cleantech a good EV battery company?

By Arbind Gupta. Assistant Editor, Business India Baring Private Equity Partners-backed Lohum Cleantech Pvt Ltd is betting big on the rapidly-growing EV battery market. The Noida-headquartered company, founded in 2018, is today commanding 70 per cent share in the lithium-ion battery recycling space through its patented technologies.

How much does Lohum supply Glencore?

Lohum supplies Glencore with 10,000 tonnes of speciality chemicals for the battery supply materials of worth \$200 million as part of the partnership. Lohum is Mercedes-Benz Energy's first Asian partner for lithium-ion battery recycling and repurposing schedule of 50MWh per annum.

What makes Lohum a great battery manufacturer?

"LOHUM has evolved from a second-life battery provider to a full-fledged material manufacturer, particularly for nickel, cobalt, and pre-CAMs. We were impressed by their global vision and their ability to establish themselves as a leader in complete battery lifecycle management."

Why should you choose Lohum?

LOHUM is India's largest producer of sustainable energy transition materials, and the only integrated battery material recycling, reuse, and low-carbon refining company in the world. We are also a green ecosystem employer that revels in building careers that empower ambition, enrich lives, and excite passion!

What makes Lohum a great company?

Serving Earth: our focus. Our cutting edge technology is our pride, but it is meant to serve the sustainable energy security needs of the world. At Lohum, low carbon and carbon neutral comes before profit. Every day is the first day for learning. We encourage our team to retain the curiosity and openness of their first day at Lohum.

In addition, players like LOHUM Cleantech are also aiming to expand their operations and in turn output key battery materials required for electric vehicles. Going forward, Verma says in the next 3 years, the idea for LOHUM Cleantech is to invest over \$100 million (Rs 824 crore) to increase capacity by 10X and revenue by 2.5x. ...

The 15.5-GWh fully integrated battery recycling, repurposing, and critical material production plant is expected to initially cater to over 315,000 electric vehicles annually with continued growth based on feedstock

availability, besides creating 250 green jobs, Lohum Cleantech said.

New Delhi, December 11, 2023: - LOHUM Cleantech, India's leading producer of sustainable energy transition materials, is excited to announce its expansion into the UAE market to build the UAE's first EV Battery Recycling plant through a partnership agreement with the Ministry of Energy & Infrastructure, UAE, and BEEAH, the Middle East's sustainability and digitalisation ...

Rajat Verma, Founder & CEO of Lohum Cleantech, said, "We are seeing immense growth opportunities both in India and globally and strengthening our leadership team for the upcoming energy transition developments. We ...

Lohum is Mercedes-Benz Energy's first partner in Asia to source lithium-ion battery for recycling and repurposing. One of India's largest producers of lithium-ion battery raw materials through recycling, repurposing, and low-carbon refining, Lohum is an integrated battery recycling and reuse company that has become the first partner for Mercedes-Benz Energy in Asia.

Rajat Verma's LOHUM Cleantech in Delhi stands out in two respects. One, in addition to making "first life" or new batteries, the entrepreneur is also building a strong line of business out of "second life" batteries -- separating out the still viable cells from used batteries and repurposing them into batteries for suitable lower ...

LOHUM is a leading organization in the field of battery recycling and second-life solutions for lithium-ion batteries (LIBS). The company is among very few Indian LIB lifecycle management firms currently refining the black mass locally to recover valuable battery raw material. Rajat Verma, the Founder & CEO of LOHUM, is spearheading their efforts.

New Delhi; September 28, 2023: LOHUM, India's largest producer of sustainable energy transition and battery materials through integrated recycling, repurposing, and refining, has become the first company outside of China and one of 5 companies globally to produce Lithium in its pure metallic form at scale. This innovation is the realization of over two years of R& D efforts by the ...

India's LOHUM Cleantech gives a new lease of life to used EV batteries through its reuse technology, making battery materials last forever through Lithium-ion battery recycling. Auto Futures recently caught up with Rajat Verma, Founder and CEO, LOHUM Cleantech. "If we only trade one problem for another then we have failed.

Speaking on the win, Rajat Verma, Co-Founder and CEO, LOHUM Cleantech said, "The CII Innovation
