

What is Longi Hydrogen Energy Technology?

Longi Hydrogen Energy Technology Co.,Ltd was officially established by Longi on Mar. 31,2021,and our first hydrogen energy equipment manufacturing plant is located in Wuxi,China. The first 1,000Nm<sup>3</sup> /h alkaline water electrolyzer was officially launched by Longi in October 2021,and several more have been delivered to customers and put into production.

Does Longi produce green hydrogen?

Longi has turned its attention to green hydrogen in recent years. Li Zhenguo,the company founder and CEO,spoke to pv magazine about its strategic shift and how he believes that coupling this technology with solar PV will be the key to achieving carbon neutrality. How does Longi view the relationship between hydrogen,solar PV,and storage?

Is Longi a good company?

LONGi has consistently maintained industry leading ability to mitigate risk and adapt to market changes and, as part of operations, the company prioritizes corporate financial health and stability, with its asset-liability ratio at a low level compared to other global PV manufacturers. Bifacial power generation .

The communities of Babilônia and Chapu Mangueira, located in Rio de Janeiro (RJ), were the first Brazilian favelas to implement a solar energy cooperative: the Percília e Lício Renewable Energies Cooperative. The model, implemented in ...

The solar industry has entered the large-format module era, with the joint efforts of leading manufacturers making power outputs in excess of 500W the new industry standard. On 29 June 2020,...

Now a team led by researchers from Chinese vertically integrated module manufacturer Longi has developed processes to fabricate high-efficiency heterojunction (HJT) solar cells, while reportedly...

Achieve integrated power source-grid-load-storage at district (provincial), city (county), and residential area levels. Leverage the adjustability of the load-side assets. Achieve flexible growth at the local level. Solar-plus-storage projects ...

Smart energy service for expressways based on distributed PV-energy storage systems, which promotes the development of green energy in the transportation sector. ... Comprehensive green energy service model and market-oriented ...

SAN RAMON, Calif. - May 17, 2022--LONGi, the world's number-one solar technology company, has been awarded "2022 Top Performer" status in the annual PV Evolution Labs (PVEL) PV ...

October 23rd, 2024 - LONGi Green Energy Technology (Hereinafter referred to as LONGi) officially announced a new world record for crystalline silicon module efficiency. According to ...

As a leading solar energy technology company in the world, LONGi believes that photovoltaic technology is a powerful weapon to deal with climate change and plays a key role in achieving the 2030 sustainable development goals of the ...
