LS Cable & System Asia is also planning to change its name to LS Eco Energy ahead of its expansion into these new businesses. The change in company name comes from the expansion of the existing power and communication cable-focused business into the submarine cable and rare-earth element sectors as the company makes the leap to become an eco ...

LS Eco Energy (CEO Lee Sang-ho) announced on the 2nd that it has signed an MOU with the Institute of Energy (IE) under Vietnam Energy (EVN) on a superconducting cable business. The two parties plan to establish a mutual cooperation system and explore business opportunities to apply superconducting cables to Vietnam's power grid.

LS Eco Energy, which started exporting cables to Denmark in 2017, has established itself as the number one player in the Danish high-voltage cable market along with LS Cable & System. The company sees this as recognition of its technology for high voltage cables in Europe, which may be called the home of cables.

LS Eco Energy was the first in Korea to enter into a contract with a Vietnamese mining company to secure rare earth oxides, and it is currently establishing a rare earth permanent magnet value chain through cooperation with LS Cable & System. Having recorded its largest ever operating profit in the first quarter based on the expansion of ultra ...
