Renewable energy is essential to producing climate-friendly and affordable SAF. Our technology works for the grid, not against it. Lydian's flexible operation enables lower electricity costs and scales quickly without risking grid reliability. We ramp up when renewable electricity is available and cost-effective, and shut down when it isn't.

"We are excited to announce the official launch of Lydian Energy as we embark on our mission of

"Connecting People + Power" through impactful renewable energy projects," said Lydian Energy CEO Emre Ersenkal. "As highly credible partners and engaged neighbors, our aim is to lead meaningful economic and environmental opportunities by ...
