

What is the future of energy storage in MENA?

MENA region has 30 planned energy storage projects in 2021 - 2025, with batteries expected to make up 45% of MENA's total energy storage landscape by 2025. APICORP recommends ten key policy actions to support energy storage solutions integration, including the creation of a MENA Energy Storage Alliance to facilitate public-private partnerships.

Why do we need energy storage solutions in the MENA region?

Dr. Ahmed Ali Attiga, CEO of APICORP, said, "The need for energy storage solutions in the MENA region is primarily driven by ambitious national renewable energy targets and mounting peak electricity demands as a result of accelerating economic development and diversification of the energy mix."

Why are energy storage systems being integrated in MENA?

The pace of integration of energy storage systems in MENA is driven by three main factors: 1) the technical need associated with the accelerated deployment of renewables, 2) the technological advancements driving ESS cost competitiveness, and 3) the policy support and power markets evolution that incentivizes investments.

Which energy storage technology has the most installed capacity in MENA?

Pumped hydro storage (PHS) has the largest share of installed capacity in MENA at 55%, as compared to a global share of 90%. Pumped hydro storage is one of the oldest energy storage technologies, which explains its dominance in the global ESS market.

Will energy storage expand in MENA?

The current utility business model limits the prospects of energy storage expansion opportunities, unless driven by direct governmental support. Auctions in MENA have been a major driver for renewable energy deployment, most notably for solar and wind, but only a few have included energy storage.

What is energy storage Alliance in MENA?

Create an Energy Storage Alliance in MENA supported by governments and the private sector to foster the development of ESS in the region, by enhancing public-private partnerships. A key objective of this alliance is to foster the development of ESS in the region through experience sharing and standardization.

SHANGHAI, Nov. 28, 2023 /PRNewswire/ -- Pylontech and BloombergNEF (BNEF) achieved a significant milestone in advancing the energy storage industry through the joint release of an in ...

In the past few decades, electricity production depended on fossil fuels due to their reliability and efficiency [1]. Fossil fuels have many effects on the environment and directly ...

ABU DHABI, UAE, April 18, 2024 /PRNewswire/ -- Sungrow, the global leading PV inverter and energy storage system provider, exhibited its cutting-edge and comprehensive renewable ...

6 ???&#0183; At their current design point, the capital cost of the power system, including labor, is C P = \$396/kW (\$33/kWh), while the capital cost of the energy system is C E = \$56/kWh. These ...

In order to meet renewable energy targets in MENA, the deployment of wide-scale energy storage will be crucial. As the Arab Petroleum Investments Corporation (APICORP) has highlighted, storage will be essential for " firming ...

The industry is receiving a boost from downstream developments, including the modernisation of the Sitra refinery, located south of the capital Manama. Bahrain's utilities segment is driving ...

What is thermal energy storage? Thermal energy storage means heating or cooling a medium to use the energy when needed later. In its simplest form, this could mean using a water tank for ...

Europe and China are leading the installation of new pumped storage capacity - fuelled by the motion of water. Batteries are now being built at grid-scale in countries including ...

The Bapco Modernization Program (BMP) is the largest energy investment in the history of the Kingdom of Bahrain and will upgrade the existing refinery into a world-class, top-quartile refinery with reduced energy intensity. The BMP's ...

ABU DHABI, UAE, April 18, 2024 /PRNewswire/ -- Sungrow, the global leading PV inverter and energy storage system provider, exhibited its cutting-edge and comprehensive renewable energy solutions at the World Future Energy ...
