

What is Ubiquitous Energy's Solar window technology?

Ubiquitous Energy's solar window technology, known as UE Power, captures infrared and ultraviolet light, while letting visible light pass through to the other side. "The magic of transparent solar is that we can embed solar technology into a product that already exists, because you don't have to see it," said Susan Stone, CEO of Ubiquitous Energy.

Can Ubiquitous Energy Turn Windows into solar panels?

Ubiquitous Energy has invented a thin coating that turns windows into transparent solar panels, providing a way to harvest renewable energy in cities.

Does Mauritania have solar?

TOUJOUNINE - Solar. Averaging seven days of rain a year, Mauritania's climate is ideal for solar and the country's first major development in the sector did not disappoint in this regard with 54,000 panels supporting 50 MW production capacity at Toujounine, on the northern outskirts of the nation's capital.

Who owns Mauritania's electricity plant?

Completed in 2017, the \$53 million plant is run by the national electricity company, Soci t  Mauritanienne d'Electricit  (Somelec), and has seen ongoing works since its inauguration by (then) President Mohamed Ould Abdel Aziz, removing an estimated 57,000 tonnes of CO₂ per annum and supplying 10% of Mauritania's net energy production.

What are transparent solar windows?

Ubiquitous Energy is building transparent solar windows with the material. Ubiquitous Energy deposits organic layers directly on glass using standard glass coating equipment. According to the firm, the transparent solar coating selectively absorbs and converts ultraviolet and near-infrared light to electricity while letting visible light through.

What is a solar window?

The result is a piece of glass that looks like a regular window, but one that can generate power. Ubiquitous Energy's solar window technology, known as UE Power, captures infrared and ultraviolet light, while letting visible light pass through to the other side.

After nearly a decade of R&D, Ubiquitous Energy has developed an award-winning technology, the world's first aesthetically acceptable, electricity-generating alternative ...
