

Who is iSun for?

iSun helps everyone - from individuals to utility companies- adopt efficient,clean energy technologies. Whether by developing innovative EV charging solutions,installing custom solar arrays,or managing completed projects or installations,we help our customers make the right investments for their energy needs.

Why is iSun important?

From the clean rooms that enabled silicone chip production,to the telecommunication installation services that connected industries and consumers to the internet,iSun has enabled the most important technological transformations of the last century.

What makes iSun unique?

iSun is more than just a solar company. For over 50 years, we've built the things required to advance the adoption of new technology...and have done the hard work necessary to make innovation commonplace. Of all the innovations we've enabled, none have been as important as the transition from dirty to clean energy.

What services does iSun offer?

iSun's Data and Electrical Contractor divisions maintain a comprehensive suite of electrical and data construction and management services. Help us accelerate the World's transition to solar energy.

What happened to iSun energy?

Recognizing the opportunity presented by vehicle electrification,The Peck Companyacquires iSun Energy,an innovative manufacturer of branded,solar-powered carports capable of providing off-grid EV charging solutions. The Peck Company rebrands as iSun. Original Clean Energy purchased iSun and took the company private.
