The partnership will also create more opportunities for MBHE Group to secure power purchase agreements to develop projects and benefit from long-term contracts. MBHE Group's financial director Werner van Wyk said, "The partnership between Puma Energy and MBHE enables us to maintain our aggressive growth strategy, offering energy as a service.

The MBHE can be employed as a hot gas clean-up system for removing tar and particulate material from a syngas produced in a biomass gasifier. The hot syngas produced in the gasifier is cleaned in the upper MBHE and transfers heat to the solid particles flow. Then the particles transfer this heat back to the inlet air of the gasifier, increasing ...
