What Are The Types of Muscle Therapy Stim Machines?How Do You Choose The Right Stim Machine?Is A Stim Machine The Same as A Tens Unit?What Are The Benefits of A Stim Machine?How Long Does Stim Take to Work?A physical therapist may recommend one type of stim machine over another, depending on your needs. Low and medium voltage options, such as TENS and IFC, work primarily for pain relief. On the other hand, high-voltage electrical stimulation is better for wound healing. Talk with a physical therapist to find which machine is right for you.See more on prohealthcareproducts DME Supply USAElectrotherapy Devices | DME Supply USABrowse the selection of affordable electrotherapy devices at DME Supply USA to find effective pain relief without medication.
