Mira Energy is an authorized energy supplier starting in 2024, with License no. 2454 issued on 31.01.2024 by the National Energy Regulatory Authority. Initially focusing on trading operations throughout 2023, the company expanded its services to the direct supply of electricity to final consumers, both household and industrial, starting in 2024.

Lithuania: Energy intensity: how much energy does it use per unit of GDP? Click to open interactive version. Energy is a large contributor to CO 2 - the burning of fossil fuels accounts for around three-quarters of global greenhouse gas emissions. So, reducing energy consumption can inevitably help to reduce emissions.
