

What is Mirai solar?

Mirai Solar is disrupting the global greenhouse market by replacing existing shade cloths with foldable, retractable, transparent solar modules. Our customizable, lightweight technology can also be applied to a variety of building integrated solar projects. Mirai Solar is re-inventing shade into the energy of the future.

Does Mirai solar need shade?

At Mirai Solar, we believe that any need for shade should be taken as an opportunity to harness the energy of Sunlight. The Mirai Screen is a photovoltaic solar screen with variable shading and output power. A fraction of the light is absorbed in the module, generating electricity, while the remaining light is transmitted.

What is a Mirai screen?

The Mirai Screen is a photovoltaic solar screen with variable shading and output power. A fraction of the light is absorbed in the module, generating electricity, while the remaining light is transmitted. The folding system allows for an optimized control of light for various applications. Plants need controlled sunlight for optimal growth.
