

What is M-kopa Solar?

In just under three years M-KOPA Solar has provided affordable energy to over 200,000 homes in Kenya, Tanzania and Uganda. They have been so successful that in some cases those who were previously off grid have been supplying power to people on the main electrical grid during the frequent power outages.

Is M-Kopa launching a pilot operation in South Africa?

In a strategic expansion move, M-KOPA, renowned for pioneering the pay-as-you-go model for solar panels and smartphones in East Africa, is set to embark on its pilot operations in South Africa.

How many customers does M-Kopa have in South Africa?

Last year, Jesse Moore, M-KOPA CEO and Co-founder said the firm would expand to more markets across Africa and scale to over 10 million customers in the next few years. South Africa thus represents M-KOPA's fourth-largest market, following Kenya, Nigeria and Ghana, where the company has enjoyed relative success with a diverse range of consumers.

What does M-Kopa do?

This significant step comes on the heels of securing over \$250 million in debt and equity, positioning M-KOPA for a comprehensive expansion across the African continent. M-KOPA's innovative approach revolves around a pay-as-you-go model, providing accessibility to smart products, including solar panels and smartphones, for low-income households.

What does M-Kopa do in Soweto?

In Soweto, M-KOPA aims to replicate its Kenyan success in a market often disrupted by power outages due to load-shedding. Despite these challenges, South Africa's dynamic and varied economy offers a new frontier for M-KOPA.

Can M-Kopa solve South Africa's problems?

Tech analyst Martin Macharia highlights the synchronicity between M-KOPA's innovative solutions and South Africa's challenges, such as frequent power outages and a sizable population lacking regular access to essential amenities.
