

Are there solar power plants in Montenegro?

As for Montenegro, news has lately surfaced about several huge investments, mostly via the urban planning and technical requirements. There are still no utility-scale solar power plants in the country. CWP Europe plans to install a solar power plant called Montechevo with a total capacity of 400 MW in Cetinje.

Did Montenegro lower the value-added tax for solar panels?

Montenegro recently lowered the value-added tax for solar panels. EPCG has a program called Solari for rooftop solar panels for households and companies. RES Montenegro Group got the urban planning and technical requirements for a photovoltaic system with a connection capacity of up to 506 MW.

Will Montenegro build a photovoltaic park?

The Government of Montenegro issued the urban planning and technical requirements for the construction of a photovoltaic park at seven locations in Lastva and Ubli near the country's historic capital of Cetinje. RES Montenegro Group has determined that the potential connection capacity is 506 MW and estimated the annual output at up to 750 GWh.
