

Where can a mobile solar container be shipped?

You can easily ship it to any location in the world. In order to improve container mobility, we recommend additional container lifting jacks. Mobile Solar Containers open up new possibilities in areas with limited access to electricity. Easy transport combined with ease of use makes it a perfect solution to satisfy energy needs in remote areas.

How does a mobile solar container work?

The mobile solar container can be brought on a single truck. It can then be lowered to sit flat on the ground with hydraulic lifting gear. Once on the ground, the folded-up solar unit first emerges from the top. And then, step-by-step, unpacks itself into a full working solar array.

Why do petroleum companies use mobile solar containers?

Petroleum companies often operate in distant locations with limited access to grid power. This is where a mobile solar containers can act as an additional power source to run the equipment. Good choice for disaster relief whenever it is important to deliver electricity as quickly as possible.

What is a self-unloading mobile solar container?

Self-unloading mobile Solar Container. Our Solar Containers are designed in a way to maximize ease of operation. It's not only meant to transport PVs but also to unfold them on site. It is based on a 20' sea container. The efficient hydraulic system helps quickly prepare the Solar to work.

Why should you choose a mobile solar container?

Thanks to its robust hydraulics containers are always ready to unfold the panels within minutes. Convenient levers make it even easier to operate for only one person. Mobile Solar Container is also a great storage option for PV panels while not in use. Automatic hydraulic systems.

What is a manual version of a mobile solar container?

A manual version of our Mobile Solar Container provides excellent value for money. Quick unfolding is possible thanks to a convenient scissor frame. Manual unfolding. The Scissor frame, mounted on the wheels allows for easy deployment on-site. Piece of a level ground is all you need to prepare this unit to work.
