

Is Estonia a good country for solar PV?

Estonia ranks 58th in the world for cumulative solar PV capacity, with 414 total MW's of solar PV installed. Each year Estonia is generating 311 Watts from solar PV per capita (Estonia ranks 13th in the world for solar PV Watts generated per capita). [source]

Why should you choose a solar panel system in Estonia?

A solar panel system will save you money on energy, and can also be used as a backup power source during power outages. The Estonian climate is favorable for solar energy production. The country experiences approximately 1600 hours of sunshine a year and the climate is relatively cool.

How to optimize solar generation in Tallinn Estonia?

Assuming you can modify the tilt angle of your solar PV panels throughout the year, you can optimize your solar generation in Tallinn, Estonia as follows: In Summer, set the angle of your panels to 42°; facing South. In Autumn, tilt panels to 61°; facing South for maximum generation.

Can solar panels be installed on a flat roof in Estonia?

In Estonia, most solar panel installations are installed on pitched roofs. Ideally, the panels should be installed at a 41 degree angle on the south side of the building. If they are installed to the north, the panels will not generate electricity. Alternatively, flat roofs may also be installed with solar panels.

How much energy does a solar PV system produce in Tallinn?

Average 1.54kWh/day in Autumn. Average 0.50kWh/day in Winter. Average 3.97kWh/day in Spring. To maximize your solar PV system's energy output in Tallinn, Estonia (Lat/Long 59.433, 24.7323) throughout the year, you should tilt your panels at an angle of 49°; South for fixed panel installations.

Are there incentives for businesses to install solar energy in Estonia?

Yes, there are incentives for businesses wanting to install solar energy in Estonia. The Estonian government offers a range of financial support and tax incentives for businesses that invest in renewable energy sources such as solar power. These include grants, loans, and tax deductions.
