

Does Beijing still provide subsidies for energy storage projects?

At the same time, Beijing's Chaoyang District continued to provide 20% initial investment subsidies for energy storage projects after energy storage was incorporated into the special funds for energy conservation and emission reduction in 2019.

Will energy storage eliminate industrial development?

In the context of the 'dual-carbon' goal and energy transition, the energy storage industry's leapfrog development is the general trend and demand. The follow-up actions will inevitably introduce a series of policies for the development of energy storage to eliminate industrial development. Faced with 'obstacles' one by one.

What are the procedures for establishing energy storage projects?

This includes defining the procedures for establishing energy storage projects, including fire safety approval, environmental assessment, land approval, facility approval, civil air defense approval, and other procedures. Grid companies must also clarify the procedures for grid connection of energy storage across various storage applications.
