

How many solar panels does New Caledonia have?

Equipped with more than 58,000 solar panels, the plant has installed capacity of nearly 16 megawatts-peak (MWp), enough to cover the energy needs of over 21,000 residents of New Caledonia. The plant will feature a lithium-ion energy storage system (ESS) with a capacity of nearly 10 MW.

What is New Caledonia Energy?

New Caledonia Energy is the entity responsible for developing the project for the new power station that will supply the energy for Sociétié Le Nickel (SLN). The current power station is nearly 50 years old and is highly polluting. The ultimate goal is to have a carbon-neutral plant by 2030, which would be a world first in the mining sector.

What will TotalEnergies do in New Caledonia?

Noumea, December 20, 2021 - TotalEnergies will develop a series of photovoltaic and energy storage projects in New Caledonia in order to deliver decarbonized electricity via a 25-year renewable power purchase agreement (PPA) for the industrial operations of mining and metallurgy consortium Prony Resources New Caledonia.

Why do we support New Caledonia's energy transition?

We are very proud to support their energy transition, and that of New Caledonia," said Thierry Muller, CEO of TotalEnergies Renewables France. "As industrial firms, we think and act responsibly. Our two companies are committed to protecting natural resources and biodiversity, and to improving the situation of local communities.

Does Prony Resources support decarbonization in New Caledonia?

"Prony Resources New Caledonia's commitment to decarbonization is both ambitious and pioneering in the industry. We are very proud to support their energy transition, and that of New Caledonia," said Thierry Muller, CEO of TotalEnergies Renewables France. "As industrial firms, we think and act responsibly.

Negative Declaration . Livingston County - The Town of Caledonia Planning Board, as lead agency, has determined that the proposed Hatchery Solar Project will not have a significant adverse environmental impact. The action involves the construction and operation of a 20-megawatt (MW) alternating current (AC) community solar energy generation facility located ...

New Caledonia's main island - Grande Terre - is almost 400 km long and 50 km wide, an area twice the size of Corsica! The archipelago boasts over 140 islands, the best known of which are the sublime Isle of Pines in the south and the Loyalty Islands on the east coast: Ouvéa, Lifou, Tiga and Maré. With its adjoining islands, the total area reaches 18,500 km².

New Caledonia has two other large-scale solar plants in operation: a 12 MW project in Bouloupari, which began operation in May 2017, and the 2.1 MW Helios Bay scheme, that was connected to the ...

Discover the wonders of New Caledonia with our collection of travel brochures and maps. Whether you're exploring the picturesque South Province, the diverse North Province, the captivating Loyalty Islands, or the enchanting Isle of Pines, ...

The plant is the second tranche of the solar park which is the most extensive solar program ever carried out in New Caledonia. The first tranche, Hélio Boulouparis 1, was put on stream in 2017. Equipped with more ...

Dutch organisation Elemental Water Makers and partners set up an energy-efficient desalination solution that provides a clean and reliable fresh water supply to two municipalities of New Caledonia, La Foa and Taanlo. With this green solution for desalination, municipalities now have a water treatment process free of chemicals that requires 70% less ...

The plant is the second tranche of the solar park which is the most extensive solar program ever carried out in New Caledonia. The first tranche, Hélio Boulouparis 1, was put on stream in 2017. Equipped with more than 58,000 solar panels, the plant has installed capacity of nearly 16 megawatts-peak (MWp), enough to cover the energy needs of ...

Equipped with more than 58,000 solar panels, the plant has installed capacity of nearly 16 megawatts-peak (MWp), enough to cover the energy needs of over 21,000 residents of New Caledonia. The plant will feature ...

In New Caledonia, we operate nine solar power plants and have started building four other plants and one windfarm. Specialty, petroleum and bio-based products In New Caledonia, we have interests in several depots and two storage ...

UK mining company, Caledonia Mining Corporation Plc, is building a 12MW solar plant to supply its Blanket mine in Zimbabwe. The renewable energy facility will supply 27% of the gold mine's electricity needs. The company released its financial results this week where they announced that they expect the solar plant to be operational within the next 12 months.

By combining solar energy and energy storage to replace electricity generated from coal, TotalEnergies is demonstrating its ability to provide a sustainable energy solution to Prony Resources...

Nouméa French Riviera Being a seaside capital, the city presents an array of sports, cultural activities, delectable dining, and a lively nightlife. Discover the region; The Islands Idyllic Lagoons From Ouvéa to the Isle of Pines, via Lifou, ...

The newly commissioned park includes over 58,000 solar panels, producing power to cover the needs of more than 21,000 New Caledonia residents. The solar farm is the second phase of the company's project in the ...

Or they hold a valid residence permit issued by Andorra, Monaco, San Marino, Canada, Japan and the United States of America authorizing readmission to these states; Or they hold a valid visa issued by a French authority for another ...

The development of clean energy in New Caledonia is still limited but with high potential. The sector is gaining momentum under the combined effects of public impetus and the fall in the cost of renewables. Hospitals are on the list of institutions that need continuous access to electricity to ensure ICU is 24/7 available.
