

Why should you choose Hawker batteries?

Hawker batteries have achieved remarkable results in maintaining technology leadership. HAWKER BATTERY GROUP LIMITED is a long-standing battery manufacturer whose highly competitive battery technology ensures its authority in the world of industrial batteries.

What is the difference between a Hawker® battery and a Hawker® batteries?

Hawker® batteries have some differences compared to a standard Hawker® battery. Hawker® batteries use thinner plates (up to twice as many plates than are found in a same-sized flooded-cell battery), and Hawker® battery plates are 99.99% pure lead. More plates equate to more active-material surface area.

Are Hawker batteries safe?

They are certified non-spillable and meet Department of Transportation DOT hazardous material requirements. Hawker® batteries have a 30-month shelf life and a 36-month warranty backed by superior direct customer support. ©EnerSys 2024.

LONGER BATTERY LIFE: The HAWKER® ENERGY-PLUS(TM) battery is designed with a balance of active material and acid volumes for higher energy AND longer battery life. The HAWKER® ENERGY-PLUS(TM) battery maintains an estimated cycle life of 1,500-2,000 cycles, based on one cycle per day and 80% DoD. Longer life = less expense.

At ITS Forklifts, we offer new replacement and additional batteries from worldwide brands - Century Yuasa, GNB, Exide, Hawker, Douglas and Enersys. We can supply batteries for all forklift's brands. When your battery is finally dispensed, ITS Forklifts will dispose of your old battery in an environmentally safe manner.
