

Meridian Energy is building New Zealand's first large-scale grid-connected battery energy storage system (BESS) at Ruakaka on North Island. Saft lithium-ion technology will provide 100 MW power and 200 MWh storage ...

WEL Networks and Infratec are pleased to announce that they have entered into major contracts for the supply and build of New Zealand's largest battery storage facility. The project will play a pivotal role in the ...

Meridian Energy is building New Zealand's first large-scale grid-connected battery energy storage system (BESS) at Ruakaka on North Island; Saft lithium-ion technology will provide 100 MW ...

Meridian Energy is building New Zealand's first large-scale grid-connected battery energy storage system (BESS) at Ruakaka on North Island; Saft lithium-ion technology will provide 100 MW power and 200 MWh storage ...

As New Zealand electrifies, more grid-scale batteries will support the growing renewable energy supply. Meridian Energy is building a 100MW (200MWh) battery near Ruakaka in sunny Northland. This battery is ...

In a New Zealand first, Counties Energy is completing the life-cycle for used electric vehicle (EV) batteries by converting them into its Berm Battery energy storage system ...

Meridian Energy is building New Zealand's first large-scale grid-connected battery energy storage system (BESS) at Ruakaka on North Island. Saft lithium-ion technology will provide 100 MW ...

Construction will commence in New Zealand on the country's biggest battery energy storage system (BESS) project so far in July this year, with the 35MW system expected to be commissioned in December.

In a New Zealand first, Counties Energy is completing the life-cycle for used electric vehicle (EV) batteries by converting them into its Berm Battery energy storage system for recharging EVs.
