

# New energy storage tashkent business park

What is EBRD doing with Tashkent solar PV & energy storage?

Nandita Parshad, Managing Director, Sustainable Infrastructure Group at EBRD, said: "We are proud to partner with ACWA Power and co-financiers on the pioneering Tashkent Solar PV and energy storage project in Uzbekistan, the largest of its kind in Central Asia. The project is core to Uzbekistan's ambition to install 25GW of renewables by 2030.

What's going on with the Tashkent Riverside Project in Uzbekistan?

From pv magazine ESS News site Saudi-listed ACWA Power has announced the completion of the dry financial close for the \$533 million Tashkent Riverside project in Uzbekistan, near the country's capital city of Tashkent. The greenfield development will involve a 200 MW solar plant and a 500 MWh BESS that will serve to stabilize the Uzbek grid.

Will Tashkent Riverside help Uzbekistan transition to a low-carbon economy?

By the end of this decade, Uzbekistan aims to generate 40% of its electricity from renewables. The Tashkent Riverside project is poised to significantly contribute to Uzbekistan's goals of transitioning to a low-carbon economy and diversifying its energy sources.

How will Bukhara project help Uzbekistan transition to a low-carbon economy?

Another 500 MWh BESS will be located in Bukhara, and the project will include overhead transmission lines to help dispatch power to the grid. The projects will play an instrumental role in achieving Uzbekistan's ambitious targets to transition to a low-carbon economy as well as diversify its energy sources.

Will Uzbekistan generate 40% of its electricity from renewables?

By 2030, Uzbekistan is aiming to generate 40% of its electricity from renewables. The BESS will help to mitigate the effects of intermittency that are inherent in renewable energy sources, storing excess electricity generated during times of high production and make it available during periods of low production.
